Chell Has Got 15000000000000 Stupidity Units. This game was better than number 1. I liked it more because you had infinite lives you didnt have to play levels more than once and this game had more content like 8 more minutes of content. I really want there to be more of these games.. Excellent. Deserves its high reviews.

This is a point and click style casual adventure game, with some "use the item / shape" type hidden object scenes.

I found it entertaining and well-designed. When I was done, I wanted a sequel.

Note: there are definitely a few jump scares, and the atmosphere is creepy at times; nothing I'd classify as horror, but something to bear in mind

I liked the title song - very cool.

There were a few places with dialogue choices, but I couldn't tell if the answers mattered (except for one easy achievement). That aspect felt unfinished, somehow - as if they'd planned for more complexity, then decided against it. That said, it was nice to be able to choose my character's overall personality through those choices.

A very solid 9.5 out of 10 for me for this type of game. I still want a sequel - is there one?. I just trying tutorial. There are some problems there but I like the concept. I wish developers to continue fixing the bugs found in there. It could be a great game! I recommend only to those have to spend 10 bucks for a buggy but promising product and further motivate the developer. Oculus Rift version.. DO NOT THINK, JUST BUY, BUY ALL YOU FRIENDS AND FAMILY, TOVARISH

With this game you will become HEREBY РУССИАИ!!!!!!111!

GAME OF THE YEAR

DRINK VODKA, LOVE PUTIN AND SAMOLIOTIK

KALINKA-MALINKA, KALINKA MOYA, V SADU YAGODA-MALINKA, MALINKA MOYA. It won't play on my Mac and it freezes on my PC. The level I played was great, but it only happened once and there was no response to my forum question asking for help.. 0/10 try to escape the game instead

From the screenshots and the gameplay vids this looks like a cheap X-Com clone (the decade old ones to be precise) which actually appeals to me.... well, I got it in a bundle and was eager to give it a go.....

Yeah.... Boring, uninspired, repetitive are just a few of the more polite words I would describe the game with. The only positive thing to mention are the photoshoped pics of avarage joes (and a jane) used for some hilariously funny ingame action shots.. great waifus, light story: a good game

Best Graphics in series. So I've played it enough to say that:

It's fun.

It's beautiful.

The song is catchy as hell.

We fell some kind of communication between the devs and the players: that beautiful song in the title screen, this fast and fun gameplay.

It's an efficient way to kill the time, and I mean that in the most positive way. You play, you have some giggles, you stop, then you start again and have fun again!

So, as simple as I could say, Barbar-Ian is a very good game, and really holds its place into games like Hotline Miami, The Binding of Isaac, Nidhogg.

And, finally, for the devs: Thanks a lot for that great game you've brought to us!. I really liked Nairi for it's cute characters and artstyle, the unusual setting and the good soundtrack. Puzzles were fine, although I would have preferred a bit less backtracking in the later parts.

Unfortunately the game ends on a cliffhanger right when the story is picking up pace. I really hope there will be a successor, it would be a shame not to see the conclusion of the story. I'll keep you my dirty little secret. Don't tell anyone or you'll be just another regret.. This might be my new favorite VR Game!

I grabbed a person, used my radiation breath to turn him into a skeleton in my hand, then ate him.

Only one arcade mode and a free play mode so far, but I love it, and played it multiple times.

Cant wait to see what comes next!!!!. This game ♥♥♥♥♥ all over WWE 2K

Dragons' Twilight II Progress Update:

Just wanted to let folks know that I have indeed been working on the next Dragons' Twilight game. I've taken your feedback and improved many systems as well as added much more playstyle customization, achievements, original art, cinematic/orchestration quality music, and more.

With a only a few hiccups, progress has been good so far. I expect a release to be between September and December 2019. So please hang in there a bit longer, and I'll be sure to drop another progress update as we get closer to launch.
